

## Weather Forecast across Major Cashew Growing Regions (Apr-01 to 11, 2017)

### Vietnam RCN crop output likely to be hit by incessant rains

#### Vietnam

In Vietnam, the weather is mixed in the last fortnight. Da Nang witnessed heavy rains during the period March 29 to April 04, which is not good for the crop which is under harvest, drying may pose a problem due to intermittent rains. However, the good news is that the possibility of rains is less starting from April 14 to 19.

In Phu Quoc region also it rained heavily during the same period to the tune of 100 mm, which is not a good sign considering the crop which was already delayed by more than a month. More rains are forecasted from 17<sup>th</sup> of this month, which is a cause of concern.

In Dong hai and Quang Ngai weather was observed good since the beginning of April and the forecast is good for the next one week or so.

Vietnam							
	Da Nang	Tay Ninh	Quang Ngai	Dong Hoi	Binh Phuoc	Phu yen	Long An
Avg Min Temp (DC)	24.1	24.91	24.1	22.44	25.33	22.1	25.22
Avg Max Temp (DC)	29.36	33.72	29.37	28.44	33.33	28.54	33.33

#### Cote d Ivoire

In Cote d'ivoire ideal weather observed since the beginning of the crop. Also received some sort of rains, which is actually good for the later crops. Overall dry weather prevails, which could help in speedy drying of the harvested nuts.

Cote d'ivoire -IVC								
	Odienne	Touba	Yamoussoukro	Bongouanou	Daoukro	Tengrela	Bouake	Bondoukou
Min Temp (DC)	23.37	22.25	23.37	23.12	23.37	24.5	22.87	23.37
Max Temp (DC)	37	35	35.5	34.75	36	37.37	34.12	34.62
	9	13	18	29	12	11		28

#### Nigeria

In Nigeria mostly dry weather prevails in the major cashew growing districts. But some places witnessed good amount of rainfall, which is unlikely to affect the remaining cashew harvest.

Nigeria								
	Abuja	Oyo	Ondo	Lagos	Eket	Nassawara	Enugu	Sokoto
Avg Min Temp (DC)	26.25	23.75	23.75	26.12	22.75	22.87	25	27.37

Cumulative Rainfall (mm)	23	9	17			10						6

## India

India overall crop condition is so far good both in terms of quality and quantity. Mostly dry weather prevailed over the major growing states. In Panruti region of Tamil Nadu raw cashew nut crop is likely to far less from previous year due to poor monsoon rainfall during the season.

India															
	Maharashtra			Goa		Tamilnadu			Kerala	Karnataka		Andhra Pradesh		Odisha	
	Ratnagiri	Kudal	Malvan	Ponda	Pernem	Panruti	Cuddalore	Kasaragod	Karwar	Karkala	Guntur	Srikakula	Koraput	Dhenkanal
